

PROGRAMME NAME: Orientation Programme.

Date and Time: 18.08.2023 at 12 pm.

Number of Participants: 28

Class Orientation Programme

For newly admitted students every year departmental orientation programme has been organized for motivating and encouraging the students for their new journey and in this year an offline mode orientation programme was organized on 18th August, 2023 at 12 pm in our department. To take a new coordination between all the faculties and students in this department, this programme was arranged. Each faculty explains the utilities of this subject, chemistry and how the NEP syllabus of the semester are distributed. The reason for development of NEP system and the syllabus was also explained to them. So that, they can see the career goals and recognize the new arrears of chemistry. The difference and linkage between practical and theoretical classes at different semesters also explained to each semester students. After all this serious and career-oriented discussion, the students are asked to introduce themselves and do anything cultural like singing, recitation or share their experience of life with everyone. The programme was arranged to make a connection between the students and teachers at the first time they entered the college. Also 1st semester students came from different school to college and they are motivated by all teachers and seniors. The department has tried its best to make the day remembered as the first day of college and to make a friendly connection between faculty and students. On a serious note, the difference between semester system and annual examination system (up to class xii) also introduced to the students.
