ICT Rooms in Srikrishna College, Bagula

Our college has well-equipped 15 ICT-based classrooms including two Smart classrooms and computer labs, and practical classes for subjects like commerce and mathematics are conducted in these labs. We use ICT-enabled teaching methods to make classes more comprehensive and effective, including visual presentations and visualizers to help weaker students understand difficult concepts. We also use WhatsApp groups for each class for swift communication, and platforms like Google Meet, Zoom, and Google Classroom for online lectures and practical classes also.
